VOL. IX, No. 238. (9th Year)

UNION, NEW JERSEY, U. S. A., SEPTEMBER 15, 1955

FIVE CENTS

The data appearing in the New York City and Paris Editions of The Herald-Tribune was assembled from the most authentic sources by Benjamin H. Freedman for publication on May 9, 1946, with the kind cooperation of Mrs. Helen Rogers Reid, the owner of these newspapers, whose friendly assistance is now again as then gratefully acknowledged by him with his most sincere thanks, and whose continued helpful cooperation is herewith graciously solicited. BHF.

WILL AMERICAN BLOOD FLOW IN PALESTINE?

The President, the Congress, and the people of the United States
are aware of the gravity of sending our Armed Forces abroad

TRUMAN IN 1948! EISENHOWER IN 1955?

Will our U.S.A. boys soon be fighting and dying in Palestine
to protect with their lives for the Zionist embezzlers now there
Palestine's "rich as any in the world" Negev oil reserves and
the Dead Sea's inexhaustible chemicals of incalculable value?

By BENJAMIN H. FREEDMAN

Founder 1946, League for Peace with Justice in Palestine

In effect and in fact, President Eisenhower's recommendation, for "formal treaty engagements" for the employment of the armed forces of the United States in Palestine, is a pledge to the Zionists in the United States, and throughout the world, that the United States will go to war in Palestine against the Middle East nations, in defense of the Zionists there, for the time being occupying Palestine as a result of their recent aggression, and full-scale cooperation of the United States in the Zionist conspiracy to embezzle Palestine's Negev "as rich as any in the world" oil reserves and the inexhaustible chemicals and minerals of incalculable value found in and around the Dead Sea, which Zionists now seek to embezzle.

ZIONISTS LONG COVETED PALESTINE'S OIL AND CHEMICALS

There are two basic reasons behind the militant Zionist conspiracy and Zionist aggression in Palestine. Firstly, Palestine possesses in the Negev area in southern Palestine oil reserves "as rich as any in the world." Secondly, Palestine possesses in and around the Dead Sea inexhaustible quantities of chemicals and minerals of incalculable value. Zionists no longer deny they covet both these.

POLITICIANS PROSTITUTE PATRIOTISM FOR POWER AND PROFIT

If the truth were told to the public by political leaders today, the public would realize that the domestic political situation, and not anything now going on in Palestine, is the real reason behind President Eisenhower's recommendation that the United States enter into "formal treaty engagements" for the employment of the armed forces of the United States in Palestine. For reasons which are very obvious, the imminent 1956 presidential election is of the greatest and gravest importance to President Eisenhower, both in his capacity as president of the United States and as titular head of the Republican Party, and this can no longer be concealed.

"INCIDENT" WILL START WORLD WAR III LIKE WORLD WAR II

When President Eisenhower's proposed "formal treaty engagements" are signed, sealed and delivered, Zionists occupying Palestine for the present can be expected to create an "incident" in

(Continued in next column)

(Continued from Column 1)

Palestine invoking the "formal treaty engagements" requiring the employment of the armed forces of the United States in Palestine, exactly as Poland in 1939 created an "incident" in the "Polish Corridor" in order to bring the British armed forces to Poland's assistance, Poland having been advised in advance to that effect as exposed by Ambassador Bullitt, a participant in that conspiracy.

President Eisenhower's proposal for "formal treaty engagements" for the employment of the armed forces of the United States in Palestine, where the United States has less right to employ its armed forces today than the British had in 1938 to employ their armed forces in the defense of the "Polish Corridor," may set in motion a similar "chain reaction" in Palestine, and thereby precipitate World War III exactly as World War II was precipitated by the British announcement of a similar nature.

The employment of the armed forces of the United States in Palestine under President Eisenhower's proposed "formal treaty engagements" is pregnant with the possibility of precipitating World War III in the not too distant future. The great danger of that occurring exists in the fact that the overwhelming majority in the United States today are totally unaware of this impending danger. This overwhelming majority of the public appears equally indisposed to interest themselves in this sinister situation. The superlatively effective Zionist propaganda organizations in the United States have been eminently efficient in "brain washing" the public far in excess even of their own most optimistic expectations, through countless "tax deductible" millions spent to misinform the public on matters vital to their security.

PUBLIC "BRAIN WASHED" ON PALESTINE BY ZIONIST PROPAGANDA

The incessant distortions of the truth, and the interminable misrepresentation of facts by the Zionist-controlled newspapers, magazines, radio, television, motion pictures, politicians, educators, churchmen, lecturers, and other Zionist-controlled mediums for controlling the thinking of an unsuspecting public on this subject, have prevented the overwhelming majority in the United States from learning the real reasons behind the militant Zionist conspiracy and Zionist aggression in Palestine, and behind the foreign policy of the United States in Palestine. Incontestable documented information on this sinister situation

(Continued on Page 2, Column 1)

(Continued from Page 1, Column 2)

has always been available to the people of the United States, but it has been totally obscured by Zionist propaganda, for very obvious reasons. The facts which follow here in somewhat abbreviated form will "open the windows" in the minds of any interested persons and allow a little "fresh air" on this subject to enter their minds for the first time, if they will read them.

STANDARD OIL COMPANY OF NEW YORK'S 1914 OIL DISCOVERY

Prior to 1919 the Standard Oil Company of New York discovered oil reserves "as rich as any in the world" in the Negev area in southern Palestine according to proofs of that fact which cannot be challenged. In 1919 the Standard Oil Company of New York submitted to the Peace Conference in Paris their geological surveys and engineering reports made by their geologists and engineers between the years 1914 and 1919. These geological surveys and engineer's reports established beyond the peradventure of any doubt the existence in the Negev area in southern Palestine of oil reserves "as rich as any in the world." These "rich as any in the world" oil reserves in the Negev area in southern Palestine now confirm a daily production potential there comparing favorably with the present daily 3,000,000-4,000,000 barrel production from the Iraq-Kuwait-Saudi Arabian-Iran oil reserves, to the immediate west of these oil reserves in the Negev area in southern Palestine, with an actual approximate daily value of \$10,000,000 and an approximate annual value of \$3,000,000,000 for the Zionists now in Palestine, if they remain.

DEAD SEA'S CHEMICALS VALUED AT FIVE TRILLION DOLLARS

In the year 1925 the British Colonial Office published the official report of their exhaustive "on the spot" investigation of the quantities and nature of the chemicals and minerals in the Dead Sea, "Production of Minerals from the Waters of the Dead Sea." The original copy of this report can be found today in the Tower of London in England. Likewise beyond the peradventure of any doubt this report supplies incontestible proof of the existence in the Dead Sea in 1925 of a supply of chemicals and minerals with a minimum value, based on today's market prices, of approximately Five Trillion Dollars—\$5,000,000,000,000—more than 5,000 billion dollars, a sum more than twenty (20) times the \$285,000,000,000 national debt of the United States today, a mere 285 billion dollars compared with the 5,000 billion dollar value of the chemicals and minerals known to exist in the Dead Sea as long ago as 1925. The quantities have increased considerably and the value has also increased considerably since 1925.

PALESTINE'S NATURAL RESOURCES KEPT SECRET FROM WORLD

Zionists throughout the world have resorted to every subterfuge to conceal from the world the existence of the "as rich as any in the world" oil reserves in the Negev area in southern Palestine and the inexhaustible supplies of chemicals and minerals of incalculable value in and around the Dead Sea. Zionists everywhere seek to discredit belief by the public of persons who attempt to inform the public about these two basic reasons for the militant Zionist conspiracy and Zionist aggression in Palestine. Knowledge by the public of these two basic reasons will destroy the illusions created by Zionists that "religious" and "humanitarian" reasons are solely responsible for their interest and activities in Palestine, an untruth believed by many today.

BRITISH DOUBLE-CROSS U. S. A. FOR PALESTINE PETROLEUM

The Negev's "as rich as any in the world" oil reserves soon became the most important of all major economic interests of the United States in Palestine. The Negev's "as rich as any in the world" oil reserves became the principal concern of the United States in negotiating the Anglo-American Treaty of 1924. The Anglo-American Treaty of 1924 sealed the fate which soon overtook Palestine and the Palestinians. The brazen betrayal of Palestine and the Palestinians by means of the Anglo-American Treaty of 1924 contributed in no small measure to the disintegration of the British Empire since then. The British Empire was unable to survive the repercussions of selling Palestine and the Palestinians "down the river," as the tool of the international Zionist conspirators. And the British Commonwealth will continue along the same road as the British Empire for the same reason. History teaches us retributive justice works surely even though slowly.

In 1918, fully one year prior to the 1919 official sessions in Paris of the Peace Conference of World War I, the ultimate disposition of the Negev's "as rich as any in the world" oil reserves was outlined in advance for this Paris Peace Conference in 1919 in a document called the "Inquiry." Included in this "Inquiry" was a memorandum called "American Interests in Turkey," which included an important section reviewing the attempts of the Standard Oil Company of New York prior to 1919 to gain a foothold in Palestine. Prior to World War I Palestine was occupied and ruled as part of the Turkish empire.

After six months' intensive exploration in the Spring of 1914, the geologists and engineers of the Standard Oil Company of New York reported oil reserves in the Negev area "as rich as any in the world." The Standard Oil Company of New York thereupon signed contracts for a twenty-five year lease in the Negev area and in the Dead Sea area. At the outbreak of World War I in July 1914, the Standard Oil Company of New York had already shipped to Palestine from the United States a large quantity of equipment for drilling oil wells, and other necessary equipment for the exploitation on a commercial basis of their extensive concessions in the Negev area and in the Dead Sea area. The World War I campaign in Turkey halted their work.

During this 1918-1919 period, Mr. Oscar J. Campbell, the most eminent authority in the world on the history of the Negev's "as rich as any in the world" oil reserves, prepared his well-known and now famous "Report on Zionism" in which he refers to a confidential study in their Princeton files. That confidential and competent complete analysis of all geologists' surveys and engineers' reports indicates that along the Jordan River valley, between the Sea of Galilee in northern Palestine, and the Red Sea in southern Palestine, "the oil deposits were as rich as any in the world." The British displayed great interest in the Negev's oil concessions when they first occupied Palestine in

(Continued in next column)

(Continued from Column 1)

1917 by virtue of the aid received from the Arab armed forces which had revolted against Turkey and joined the British forces to fight Turkey. Without Arab aid the British faced sure defeat.

BRITISH CONSPIRE TO OUST STANDARD OIL COMPANY OF N. Y.

Mr. William Yale was in the employ of the Standard Oil Company of New York in 1915, 1916, and 1917 and was stationed in Jerusalem during those three years. In 1918 Mr. Yale was acting as military observer for the United States in Palestine and was attached to the British and Arab forces under General Allenby, then fighting against the Turkish armies in Palestine. In 1918 Mr. Yale learned that General Money, the British Military Governor of Jerusalem, and British Colonel Storrs, had made brazen attempts to discover the exact locations of the oil discoveries in the Negev area from prominent Palestinians associated with the Standard Oil Company of New York in the exploitation of these concessions. Having failed in their attempts, the British government in London brought great pressure to bear on these prominent Palestinians in another attempt to force them to reveal these locations. When these attempts failed, the British government in London resorted to questioning Mr. Yale himself in another attempt to obtain that information. Mr. Yale reported this matter to the Military Intelligence in Washington, and through them the State Department was advised of the keen interest of the British in Palestine's Negev "as rich as any in the world" oil reserves.

WORLD WAR I PARIS PEACE CONFERENCE ZIONIST DOMINATED

The Standard Oil Company of New York had received a very detailed report of the incidents which took place in Palestine prior to March, 1919. The officials of the company complained to Under-Secretary of State Frank Polk that the British had actually forced the agents of the Standard Oil Company of New York in Palestine to show the British the maps of the company's successful drilling operations for oil in the Negev area, and that the British then proceeded to make copies of the maps for themselves. Mr. L. I. Thomas, an official of the Standard Oil Company of New York, appeared in person at the Paris conference indignantly protesting that the British Foreign Office had actually prohibited the company's geologists and engineers from proceeding with development work in the Negev by very foul tactics.

ZIONISTS INTENT IN 1919 IN PRESERVING OIL CONCESSIONS

Mr. Thomas went into this matter thoroughly with his company's representatives in Constantinople in an attempt to learn who was behind this interference. Mr. Thomas was advised in strictest confidence by his well-informed representative in Turkey that the British interference was entirely due to pressure from the "Zionist Party." Mr. Thomas was further advised by this representative that "the Zionists are intent on hampering outsiders in order to preserve the concessions for themselves." When advised to this effect, Mr. Thomas demanded United States intervention directly with the British government, then in effective control by the Zionists.

At that time also, Mr. Thomas delivered to Mr. William Yale, his former employee in the Standard Oil Company of New York, and at that time connected with the Paris Peace Conference, a copy of the Standard Oil Company of New York's oil concessions in the Negev area in southern Palestine, which covered almost the entire area south of the railroad running between Jaffa on the Mediterranean and running inland to Jerusalem, indicated on maps as the Negev. When in 1919 Mr. Yale held conferences with British officials in Palestine to discuss with them an equitable arrangement for adjusting all problems in the Middle East, he emphasized the concern of the United States over the underhand British methods employed in their attempt to obtain a monopoly of all the oil reserves of the entire area, which included the adjacent Iraq-Kuwait-Saudi Arabian-Iran oil reserves. General Allenby and all other British officials participating in these conferences pretended complete ignorance of the whole matter, and appeared astonished at the suggestion of the possibility of British double-faced, double-dealing double-talk.

BRITISH PLOT WITH ZIONISTS TO CREATE ZIONIST STATE

Because of the growing importance of oil reserves to the security of the United States, Mr. Yale prepared a memorandum on his experiences with the British in Palestine, strongly emphasizing the necessity of keeping the "open door" in Palestine for oil companies in the United States. Mr. Yale cautioned the War and State Departments that British policy was excluding oil companies in the United States from the oil reserves in other countries in Asia controlled by the British, while the British at the same time were acquiring extensive oil reserves in the United States in Texas, Oklahoma and California. Mr. Yale emphasized in his report that the British were resorting to very questionable tactics to obtain and retain permanent political control of Palestine on account of the Negev's "as rich as any in the world" oil reserves, and the chemicals and minerals in and around the Dead Sea. Having been thwarted in this attempt, the British government was compelled to plan the creation of the present so-called "sovereign" Zionist "state" in Palestine.

Prior to the defeat of Turkey in World War I Palestine had been occupied by Turkey as part of the Turkish Empire for several centuries. Unable to defeat Turkey by themselves, the British offered the Arabs their independence if they would revolt against Turkey and join the Allied Powers to defeat Turkey, which the Arabs did. Shortly prior to the outbreak of World War I in 1914, the Standard Oil Company of New York had purchased from Turkish subjects seven concessions for the exploitation of the oil reserves in the Negev area in southern Palestine, then still a part of the Turkish Empire, and for the exploitation of the chemicals and minerals in and around the Dead Sea, also in Palestine, which they immediately developed.

BRITISH DISHONORED IN MOSLEM WORLD FOR BREAKING WORD

The British in 1915 promised the Arabs in the Turkish armies that the British would guarantee their complete independence and sovereignty in the event of the defeat of Turkey with their assistance. The revolt of the important Arab forces in the Turkish armies in Palestine resulted in the immediate defeat of Turkey. The defeat of Turkey made possible the invasion of Austria-Hungary by the Allied Powers, and subse-

(Continued on Page 3, Column 1)

(Continued from Page 2, Column 2)

quently the early defeat of Germany. The repudiation of this solemn obligation by the British at the behest of Zionists will forever remain one of the blackest pages in the history of Christian civilization, and it will never be forgotten by the Islamic world. In 1917, two years after this pledge to the Arabs, the British published a letter to the Zionists signed by Arthur Balfour, now called the Balfour Declaration, drafted in the United States by Supreme Court Justice Louis Brandeis and Supreme Court Justice Felix Frankfurter. Although the British owned nothing in Palestine to legitimately promise to anyone, the British promised in this letter to the Zionists a "homeland in Palestine" and not as Zionists falsified "Palestine as a homeland."

COUNT BERNADOTTE MURDERED BY ZIONISTS TO EMBEZZLE OIL

United Nations did not include Palestine's Negev in the territory United Nations "allocated" in northern Palestine to the Zionists by "recommendation" under their fraudulent "partition plan." United Nations in 1948 "allocated" Palestine's Negev under United Nations "partition plan" to the Palestinians rightfully occupying that area. In spite of this fact, Zionist armies in 1949 marched into the Negev and have occupied it since then. United Nations sent Count Bernadotte to Palestine to make an "on the spot" investigation. When the Zionists learned that Count Bernadotte was about to report to United Nations demanding that the Zionists evacuate the Negev area, they murdered Count Bernadotte in cold blood in the streets of Jerusalem before Count Bernadotte could return to United Nations in the United States and present his report. Zionist "pressure" in United Nations has prevented that report from ever being made public. It must now be evident why the Zionists murdered Count Bernadotte and suppressed his report to United Nations.

HEAP "HONORS" ON RALPH BUNCHE FOR ZIONIST "PEACE"

Count Bernadotte was replaced by his assistant Ralph Bunche, who accompanied Count Bernadotte to Palestine to investigate the invasion of Palestine's Negev by Zionist armed forces. Ralph Bunche assisted in preparing Count Bernadotte's report demanding that the Zionists evacuate Palestine's Negev area. Ralph Bunche remained silent on this question after the murder of Count Bernadotte. Ralph Bunche did not demand that United Nations take the necessary steps to compel the evacuation of the Negev area by the Zionist invaders. In recognition of his willingness to ignore the Zionist occupation of the Negev contrary to United Nations resolutions, the Zionists have repaid Ralph Bunche's failure to take the action Count Bernadotte intended to take by showering him with honors of all kinds. Scarcely a week passes that Ralph Bunche is not honored by an organization of some kind. The Zionist-controlled newspapers, radio and television honor Ralph Bunche for the "peace" he brought to Palestine. Ralph Bunche regards "peace" as allowing the thieves to retain what they have stolen.

450,000,000 MOSLEMS RESENT U. S. A. RAPE OF PALESTINE

The United States has not yet fully felt the reaction of the 450,000,000 Moslems in the Middle East, North Africa and Asia to the part played by the United States as an "accessory before the fact" and as an "accessory after the fact" in the rape of Palestine. The United States cannot escape the consequences of playing a very important role in the most inhuman international aggression by force and violence against an innocent and helpless nation in all the recorded history of mankind. The Moslem world is rightly convinced that if the United States had not "engineered" the rape of Palestine for the Zionists that Palestine and the Palestinians would today be happily enjoying peace, progress and prosperity as an independent sovereign state in the "family of nations." The guilt for the commission of that crime rests primarily upon the United States. For the United States to regain the respect of the world, the United States must help the Palestinians to regain complete physical and political control of their homeland immediately.

The British government, then as now, was under Zionist domination to an extent far greater than the present Zionist domination of the United States government. The Rothschild international "octopus" in England "master-minded" the Zionist conspiracy in Palestine since 1860. The Rothschild international "octopus" has been the "shadow government" of the British Empire since the Cromwell revolution, which they financed to make possible the reentry of their co-religionists into England. The co-religionists of the Rothschild international "octopus" first arrived in England in 1078. In 1290 the 15,660 co-religionists of the Rothschild international "octopus" were banished from England on account of the political unrest created in England by their monopoly there of money-lending. After having been banished from England for 370 years, they were granted permission to return to England by Cromwell. Hyamson and Roth have written two great histories dealing with these events. Since the reentry into England of the co-religionists of the Rothschild international "octopus" they have literally purchased control of the British government with the wealth controlled by them. Facts and figures today supply incontestable proof that the Rothschild international "octopus" is the actual ruler of the British government, although the fact is not advertised.

PRESIDENT EISENHOWER'S "FORMAL TREATY ARRANGEMENTS"

President Eisenhower's proposal for the employment of the armed forces of the United States in Palestine was proclaimed officially on behalf of President Eisenhower by his Secretary of State, John Foster Dulles, on August 26, 1955. Never in the history of the United States has any official declaration on foreign policy received more world-wide publicity and comment. The Zionist-controlled newspapers, radio and television saw to that. On August 26, 1955, Secretary of State Dulles was rushed to New York City from Washington to announce this offer of military and financial assistance before the Council on Foreign Affairs, an effective part of the apparatus of the Zionist "shadow government" in the United States. Among matters mentioned, President Eisenhower's spokesman, Secretary of State John Foster Dulles, stated as follows:

"President Eisenhower has authorized me to say . . . he would recommend that the United States join in formal treaty arrangements to prevent or thwart any effort by either side to alter by force the boundaries between Israel and its Arab neighbors."

(Continued in next column)

(Continued from Column 1)

RAPE OF PALESTINE LOSES IMPORTANT ALLIES FOR U. S. A.

Under the terms of President Eisenhower's proposed "formal treaty engagements," the armed forces of the United States may be fighting a "hot" war in Palestine against all the Middle East countries sooner than the disinterested public suspects. Associated in that "hot" war with the Middle East countries will be all the other Asian and African countries, either as actual combatants or only as "beneficent neutrals." The total population of these countries is 1,800,000,000 or 80% of the world's total population, four out of every five human beings on the face of the earth. The population of the United States is 6% of the world's total population. The 450,000,000 Moslems in the strategic Middle East, North Africa and the southern tier of Asian countries exercise a great influence over the non-Moslems of this total 1,800,000,000 population. The Soviet Union and the countries beholden to the Soviet Union may enter the "hot war" or remain "beneficent neutrals." In either event this presages defeat in that war for the United States.

A "beneficent neutral" is the term for the role played by the United States in the two recent world wars, before the United States was sucked into them by the allied powers to snatch victory for them from their total defeat by Germany in 1917, when Germany had them with their "backs to the wall." As "beneficent neutrals" we supplied the allied powers with everything to carry on their war, excepting soldiers, until we were sucked into war, and then we gave them soldiers also. Without our contributions as a "beneficent neutral" the Allied Powers would have lost both wars to Germany very soon after they started. The Soviet Union was a "beneficent neutral" in the recent war in Korea. That resulted in the defeat for the United Nations in Korea, including the armed forces of the United States. The "inevitability of the unpredictable" in a "hot" war in Palestine may hold as big surprises in store for the unsuspecting "brain washed" public in the United States, as it did in Korea, where the United States suffered its first defeat in war.

PREDICAMENT OF PRESIDENT AS TITULAR HEAD OF HIS PARTY

The election of a Republican president in 1956 will retain for the Republican Party the prestige, the power and the profit associated with administering the \$65,000,000,000 annual budget of the nation for the next four years. It is also as likely as not that the election of a Republican president in 1956 may result in the election of a Congress with a Republican majority in both the Senate and the House of Representatives, something greatly to be desired by President Eisenhower equally as president of the United States and as titular head of the Republican Party. At the present time President Eisenhower is faced with Democratic Party majorities in both the Senate and the House of Representatives. This domestic political problem is responsible for the foreign policy of the United States in Palestine, and responsible for President Eisenhower's recommendation for "formal treaty engagement" to employ the armed forces of the United States to fight a Zionist war for them.

Since he became the titular head of the Republican Party, President Eisenhower has no doubt been advised by his subordinates that in order to elect a Republican candidate as president of the United States it is essential to obtain the votes in the Electoral College of the five states in which Zionist votes hold the balance-of-power in the popular elections in those five states. Victory for a political party in the presidential popular elections in any state gives to the victorious political party all the electoral votes of that state in the Electoral College. The president is actually elected to office by a majority of all the electoral votes cast by the states in the Electoral College elections. The five states essential for a Republican victory in the presidential elections are New York, California, Illinois, Pennsylvania and Massachusetts. In the 1952 presidential elections these five states had 148 Electoral College votes out of the total of the 531 Electoral College votes of all the 48 states, or approximately 28% of all Electoral College votes, more than enough to swing an election.

ZIONIST VOTES IN FIVE STATES CAN ELECT OUR PRESIDENT

In the 1952 presidential elections the 48 states had a total of 531 electoral votes in the Electoral College. The five states of New York, California, Illinois, Pennsylvania and Massachusetts had a total of 148 electoral votes out of the total of 531 for the entire 48 states. These 148 electoral votes gave these five states 28% of the total electoral votes. New York State had 45, California had 32, Illinois had 27, Pennsylvania had 32 and Massachusetts had 16 electoral votes in the 1952 presidential elections in the Electoral College. The Zionists are able to "deliver" these 148 electoral votes, 28% of the total, to either political party, as they have shown them in so many past presidential elections. The Zionist votes in New York City carry control of New York State, the Zionist votes in Los Angeles and San Francisco carry control of California, the Zionist votes in Chicago carry control of Illinois, the Zionist votes in Philadelphia and Pittsburgh carry control of Pennsylvania, and the Zionist votes in Boston carry control of Massachusetts, taking into account with them the large number of additional Zionist votes scattered in the smaller cities in these five states, and taking into account the additional large number of other votes in these five states effectively controlled by Zionist economic and financial pressures, and by effective Zionist "quid pro quo" ("tit for tat") political "deals" in these five states with other so-called religious, racial and national "minorities," such as Negroes, Catholics, Italians, etc.

ZIONISTS "BLACKMAIL" BOTH POLITICAL PARTIES EQUALLY

A study of the percentages of the concentrated Zionist votes in these five states of the total Zionist vote in the United States, and the respective percentages of the total of all the Republican and Democratic votes in presidential elections in each of these five states, establishes beyond all doubt that the percentages of Zionist votes always decides elections in these five states. Zionists at their option can "deliver" the total 148 electoral votes of these five states to either political party. Zionists use this power to "blackmail" political parties into competing for their votes by tempting them with 148 electoral votes as a political "pay-off." In addition to Zionist votes in these five states, Zionists influence many times the total number of Zionist votes in these five states by skillfully em-

(Continued on Page 4, Column 1)

(Continued from Page 3, Column 2)

ploying Zionist-controlled newspapers, radio, television and other Zionist-controlled methods for influencing votes. The domination by Zionists of commerce, industry and finance in these five states increases the power of Zionists to control large numbers of additional votes. Therein lies the ability of Zionists to dictate the election of the president of the United States and the foreign policy of the United States in Palestine. This dangerous dilemma in which the 152,684,232 non-Zionists in the United States now find themselves is a matter which deserves more consideration than it is receiving.

BALANCE-OF-POWER ZIONIST VOTES POWERFUL FACTOR TODAY

It would mean political suicide for the Republican Party to ignore the Zionists' effective control of the 148 electoral votes of those five states. The planks in the platforms of both political parties, their other promises to Zionists and the performance in office of elected officials with respect to the foreign policy of the United States in Palestine have been planned to capture the Zionist balance-of-power votes in the popular elections of those five states, in presidential elections. The extremes to which presidential candidates have gone for that purpose in the past have earned for the United States only the friendship of Zionists in the United States, and of course for whatever it may be worth to the United States, throughout the world, but have lost for the United States the century-old friendship of 1,800,000,000 persons in Africa and Asia, 80% of the world's total population, in those great continents whose manpower and natural resources are vital beyond measure to the security of the United States today. In any war with the Soviet Union and the nations beholden to it, the United States faces defeat and surrender to the Soviet Union without the loyal support of the peoples of these two continents.

450,000,000 MOSLEMS PLEDGE AID TO PALESTINIAN ARABS

President Eisenhower's recommendation for "formal treaty engagements" to employ the armed forces of the United States in Palestine is entirely "a horse of a different color" than appears on the surface. To those who are well informed on the conspiracy behind President Eisenhower's recommendations, such "formal treaty engagements" have inherent in them grave implications which do not appear on the surface. The only actual outcome of such "formal treaty engagements" will be to "freeze" at the time the "status quo" in Palestine. That is what the Zionists now most desire and most require to remain in physical possession of Palestine even temporarily. With or without "formal treaty engagements" by the United States guaranteeing permanent physical possession of Palestine to the Zionists on a "status quo" basis, the 450,000,000 Moslems of the Middle East, North Africa and Asia someday from what they say today, intend to lend to the exiled Palestinians, when they are able to do so, the same kind of assistance to recover their embezzled homeland which the Christian nations of Europe, North America and South America gave to France in 1914, to then assist France in recovering Alsace-Lorraine, her "Lost Province," taken from France by Germany in 1871 in the Franco-Prussian War. A "double standard" in such matters incites new wars.

REASONS BEHIND PALESTINE PLEDGE SUPPRESSED AND SECRET

The suppressed and secret reasons for President Eisenhower's recent recommendation for "formal treaty engagements" for the employment of the armed forces of the United States in Palestine are as little suspected today by the public as the public in 1941 suspected at that time the suppressed and secret reasons for the imminent and inevitable attack by Japan on Pearl Harbor, before the actual occurrence of that tragic and deplorable event. The grave implications inherent in President Eisenhower's proposal to employ the armed forces of the United States in Palestine jeopardize the peace of the world today, as well as the security and welfare of the United States, more than any declaration made by the head of a government since the outbreak of World War II as the result of a similar situation.

ZIONISTS ANNOUNCE "DISCOVERY" OF OIL IN PALESTINE

The New York Times on September 24, 1955, boldly featured on the front page a "Special Cable to The New York Times" describing the "discovery" of an oil well in Palestine's Negev area. For the time being Palestine's Negev area is occupied by a fully equipped and trained army of youthful Zionist males and females disguised as "pioneers" to allay the world's suspicion why this army is kept there. Mr. Kenneth Love, the correspondent of the New York Times in Palestine, was duped into sending from Tel Aviv this "Special Cable to The New York Times" broadcasting to the world the "discovery" of oil by Zionists in Palestine's Negev area. The New

York Times published a large map of Palestine with Mr. Love's lengthy "Special Cable to The New York Times." On this map the "Negev" is indicated in large letters. The "discovery" oil well is indicated on the map in the middle of Palestine's Negev area. The banking firm of Kuhn, Loeb & Company, United States representatives of the Rothschild international financial, political and industrial "octopus," the master-minds of Zionist subversion in Palestine since 1862, exercises effective control over The New York Times. The New York Times has been the outstanding advocate in the United States of the militant Zionist conspiracy and Zionist aggression in Palestine. The New York Times is giving the public another "brain washing" with its reports on the "discovery" of oil in Palestine's Negev area.

The "Special Cable to The New York Times" appears there under a large headline reading "ISRAEL HITS OIL IN OLD DRILL HOLE; DISCOVERY ACCLAIMED BY NATION." The map indicates this "discovery" oil well about 40 miles south of an imaginary line running between Jaffa and Jerusalem, in the area indicated "NEGEV" on the map. This "discovery" oil well is in the heart of Palestine's Negev area, described in the Standard Oil Company of New York's 1914-1919 geological surveys and engineer's reports "as rich as any in the world" in oil. Mr. Kenneth Love's "Special Cable to The New York Times" from Tel Aviv calls attention to the fact that the "discovery" oil well was only the result of drilling deeper down into an abandoned test-hole drilled by others long before the Zionist armed forces invaded Palestine's Negev area in 1949. The Zionists occupied this area after the 1949 armistice.

As this newspaper goes to press, The New York World-Telegram-Sun, on page 1 of its October 12, 1955 issue, features an Associated Press cable from "Heletz, Israel" dated October 12, 1955 under a headline reading "ISRAEL BRINGS IN SECOND GUSHER." This oil well "gushing 250 feet high" is "gushing" oil from Palestine's Negev "as rich as any in the world" oil reserves. The geologist there remarked "this Heletz-Hulekat area" in Palestine's Negev "it is not small," according to the Associated Press cable. The Associated Press cable continues "He added that seismographic studies indicated development of about 100 wells in the (Heletz-Hulekat) area 'is not impossible.'" That is only the beginning.

HOW TO AVOID SLAUGHTER OF OUR U. S. A. BOYS IN PALESTINE

In spite of every protest to the contrary, regardless of their origin, every man, woman and child in the United States must be told as quickly as possible, why their precious sons, husbands, brothers and fathers may soon be fighting and dying in Palestine, as only so very recently they were fighting and dying unnecessarily in Korea. Beyond all question of doubt, it is vital today to the security of the United States, and to the immediate and future welfare of every person in the nation, that the public be informed as rapidly as it can be done, the real reasons, until now so successfully suppressed and kept secret from the public, why President Eisenhower now recommends "formal treaty engagements" for the employment of the armed forces of the United States in Palestine.

U. S. A. ARMY TO PALESTINE WORLD WAR III CURTAIN RAISER

The most competent qualified persons to judge this are of the unanimous opinion that employment of the armed services of the United States in Palestine will prove to be the "curtain raiser" for World War III, with all its ghastly inevitable and now unavoidable catastrophic consequences for every man, woman and child in United States. That calamity must be prevented at all costs. Only the aroused active interest immediately by an alerted public can prevent the disastrous outcome of existing ignorance and/or indifference throughout the nation on this important question. To successfully avoid and avert that cataclysm the entire nation must become fully informed on the relevant facts which follow here. In times of danger it is wise to bear in mind that "forewarned is forearmed," and that "it is better to be safe than sorry." It is now later than the nation realizes, and time is running out for us, but there is still time in which to save the situation by acting now.

WHAT EVERY GOOD CITIZEN SHOULD DO BEFORE THE SUN SETS

Every father and son, every mother and daughter, and every husband and wife should sit down and write a letter to his or her Congressman and Senator. A million letters to Congressmen and Senators may keep our boys in their U.S.A. uniforms out of Palestine, and preserve the peace of the world. The Constitution of the United States guarantees every citizen "the right to petition Congress." Mail him or her a marked copy of this Common Sense. They will know their own constituents have the facts and this will give them courage to act. Do it today. Tomorrow may be too late.

"buy! buy!" or "bye-bye"

"Buy! Buy!" today as many copies of this issue as you can afford, and distribute them personally in your community to your friends and to men and women of importance in every walk of life. If you do not make the sacrifice to do this you may soon be waving "Bye-Bye" to all those very precious rights and privileges you now enjoy under the only truly representative form of government left in the world today. Whenever the citizens of the United States have been correctly and completely told the truth on any subject they have always done the right thing at the right time. You too can help in this fight to save your country for you by your aid in increasing the distribution of Common Sense to more than 1,000,000 copies to new readers. Your cooperation today may prove to be "the straw that breaks the camel's back." Obey that impulse. Order now!

\$1. for 30 copies, \$3. for 100 copies, \$10. for 500 copies.

Common Sense

530 Chestnut Street, Union, New Jersey, U. S. A.

I see I turn I feel RED, WHITE & BLUE

I SEE RED as I vision the precious blood of the countless innocent millions drenching the sacred soil of our dearly beloved United States in World War III, staining it as red as the flag of those who spill it.

I TURN WHITE even at the thought of surrender by the United States to the Soviet Union, defeated by them with atomic and hydrogen bombs made from secrets stolen from us for them by traitors in our government.

I FEEL BLUE as I meditate that this fate may too soon overtake us because the nation is too busy making money and having fun to listen to those who still can tell them how they can save their country from ruin.

Only an informed nation can know how to save itself from destruction.

Send \$1., \$5., \$10., \$50., \$100. or more and every penny of your gift will be used to send copies of Common Sense to all who should be reading it.
